

Star Wars The Black Fleet Crisis Boxed Set (Books 1-3) Before the Storm, Shield of Lies, & Tyrants Test [1997]

The outbreak of the Black Fleet Crisis ends a period of relative peace in the galaxy. Yevethan forces (former Imperial slaves who overthrew their masters) using captured Imperial ships begin a genocidal campaign to conquer the Koornacht Cluster by killing all non-Yevethans. The New Republic is forced to fight in its own defense, as well as to rescue hostages held by the Yevethans (including Han Solo). After obtaining an image of Han as a battered hostage, Chewbacca goes on a desperate rescue mission. Luke Skywalker travels to his mothers homeworld, Fallanassi, in search of her and her people. Luke meets the Fallanassi, a mysterious and secretive sect of Force users who are total pacifists. Luke learns new Force techniques and philosophies from them, and gains their help to aid the New Republic in one battle. Leia is the only person who doesnt have chance to rest, who because of her fame, what others expect of her, and her sense of duty and obligation, she has become a prisoner of the Presidency. But she is far too tired, stressed beyond her limits, and emotionally fragile, and shes only two steps away from a serious personal crisis of her confidence. Nil Spaar, the shrewd, coldblooded Machiavellian Viceroy of the Yevethan Protectorate, sees that as an opportunity he can exploit and an opportunity to destroy the New Republic from within.
