

Starship Fall

David Conway leads a quiet life in picturesque Magenta Bay on the colony world of Chalcedony. Nothing much has happened for five years, but all that is about to change. First he meets the mysterious holo star Carlotta Chakravorti-Luna, who regrets the lost loves of her past and dreams of learning what the future might hold. Then Conway's alien friend Kee heads inland to take part in an Ashentay ritual with potentially fatal consequences. What follows is a convoluted and poignant tragedy which entangles Conway and his friends. In Starship Fall, Eric Brown has crafted a powerful, moving novella about love, friendship, and the consequences of learning one's destiny.
