

The Actuator 2: Return of the Saboteur

The Machine Monks fight to keep control of the Actuator while enemies attack the base. As besiegers wear them down, the rest of the world struggles to adapt to the chaos left in the wake of the great change. Their only choice is to push forward and find the next key and shutdown the fantasy realm surrounding the base. When they do, Xenwyn will die. Haunted by the incalculable death toll all over the earth, Jon accepts the mission to recover the next key. Despite his injuries and as much as he hates to leave his newfound love, he refuses to let all of humanity suffer if he can fix it. Desperate to keep Xenwyn alive, Red determines to find a magical cure before Jon gets back with the key. Each time he takes her across a border, might be the end. Seeing all his friends in turmoil, Dragon Star sets out to find the saboteur. If the architect of this dark world cannot offer any means of setting things right, he will at least see consequences for the horrors he unleashed. None of them ever imagined the Actuator could still make the world even worse.
