

The Book of Truths (Area 51: The Nightstalkers Book 2)

Building off the world first seen in Bob Mayers Area 51 novels, the Nightstalkers series explores a new covert force dedicated to moving unseen in their fight against the unknown. A little truth is a dangerous thing. A lot could kill us all. The Nightstalkers are back, and the world needs them now more than ever. When a real-life truth serum, an unauthorized military cabal, and the nuclear football which contains the authorization the President needs to launch the nations missiles all converge, the Nightstalkers suit up for another deadly job. Joining forces with the Cellar, the covert worlds police force, the team might be mankinds last hope. With the President infected by an out-of-control pathogen, the Nightstalkers primary mission becomes finding a hidden stash of nuclear missiles before a secret group can launch a pre-emptive strike against Americas enemies. Because a rogue general has taken control of the operation center beneath the White House, and all hells about to break loose. The Book of Truths builds and builds before roaring to a breathless showdown that could mean the beginning of the end for everyone.
