

Time Travel in Fiction: The Time Machine, The Clock that Went Backward, A Christmas Carol (Illustrated)

This carefully selected collection features classic works of fiction that explore the recurrent theme of time travel. In *The Clock that Went Backward*, a mysterious clock sends two cousins three hundred years back in time to play a vital role in a battle during the Eighty Years War. In H. G. Wells' satirical novella, the time machine takes its inventor to a futuristic world, where humans have evolved into two distinct species: the Eloi and the Morlocks. The tale that ensues is a political commentary on Victorian England. Finally, in *A Christmas Carol*, Scrooge is forced to confront his future as part of a journey of personal redemption. The book includes 18 illustrations and the following engaging works: *The Time Machine* (1895) *The Clock that Went Backward* (1881) *A Christmas Carol* (1843)
