

The Event--Apocalypse Dawning

Every person has imagined what it would be like to wake up one morning and discover they were the only person left alive on Earth. The Event--Apocalypse Dawning has taken a new twist in this fantasy. There is no cataclysmic destruction of the earth, no lingering virus, or mutated brain-eating zombies. There is however a selective culling of the population. Ninety-five percent of the Earth's population vanishes in a blink of an eye. Left are the few survivors, separated from each other, absent the governments which ruled them and the moral and ethical laws of society which guides them. Each man becomes a new Adam. And, each woman becomes a new Eve. If humanity is to survive, somehow these castaway remnants must find each other and establish new societies, which may or may not necessarily be patterned after the old ways.
