

Harvest of Change (Volume 6)

Zendo wanted to be out in the countryside trading. He needed to make money so he could marry Illy and also he had a debt to the star traders. The Sultan interrupted his plans when the troops messed with Zendo's customers and came after him. It was time to put a stop to this nonsense. But how could two ordinary citizens stop a well-armed army? What would the star traders do? How would the four young maidens from under the sea enter in to this conflict? It was time for action as the country erupted into civil war and Zendo became the key to end it. Bonus Short Story Seeds of Change included.
