

The Eye - A Treatise On Eye Signs And A Study Of The Eyes Of Great Families Of Homing Pigeons

This early work is a fascinating read for pigeon breeders and historians of the breed, but also contains much information that is still useful and practical today. A detailed study of the pigeons eye and its reflection of good breeding. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
