

The Green Rust

Two of British author Edgar Wallace's best-selling books are bound together in this Kindle edition: *The Green Rust* & *The Man Who Bought London*. *The Green Rust* is a thriller in which bio-terrorists threaten to release an agent that will destroy the world's corn crops. *The Man Who Bought London* (1915) King Kerry plans on buying London, starting with several shops on Oxford Street. En route, however, two shots ring out and King Kerry seems to know more about his would-be attacker than he's letting on. This is one of Wallace's best crime novels, later made into a Hollywood film by the same name. About the author: Richard Horatio Edgar Wallace (1875-1932) was the illegitimate son of an actress, adopted by a Billingsgate fish porter named Dick Freeman. He sold newspapers in London at age 11 and joined the army at 21. He was a Reuters war correspondent during the Second Boer War and wrote thrillers to earn extra money from books such as *The Four Just Men* (1905). He failed in his bid to stand as Liberal MP for Blackpool and moved to Hollywood to work as a script writer. While drafting the blockbuster film *King Kong*, he died from diabetes.
