Sir Arthur Conan Doyle (1859 - 1930) is known the world over as the creator of the famous consulting detective, Sherlock Holmes. To a lesser extent, his irascible Professor Challenger is known to generations of readers. The Lost World is one of Conan Doyle's best known novels, a tale of adventure on a remote plateau deep in the Amazonian jungle, where steep cliffs on all sides have isolated life atop the plateau from the rest of the world for eons. Professor Challenger and his company of intrepid adventurers make their way into Conan Doyle's Lost World, only to find themselves exposed to dangers they could never have anticipated, even if they had really believed Challenger's claims of the wonders to be seen in the mysterious, isolated world he had described. Challenger himself had reached the threshold of the plateau on a previous adventure, but even he is not prepared for what awaits in the land above the cliffs, where prehistoric creatures even more astonishing than the dinosaurs he predicted lurk in the dense forests. Conan Doyle's tale has been a perennial favorite with readers since it first appeared one hundred years ago, inspiring several film versions, along with television programs, cartoons and comic books, some faithful to the story and some only loosely based on it.
