

The Physiology of Taste: or Meditations on Transcendental Gastronomy (Everymans Library)

A culinary classic on the joys of the table written by the gourmand who so famously stated, Tell me what you eat, and I will tell you what you are in a handsome new edition of M. F. K. Fishers distinguished translation and with a new introduction by Bill Buford. First published in France in 1825 and continuously in print ever since, The Physiology of Taste is a historical, philosophical, and ultimately Epicurean collection of recipes, reflections, and anecdotes on everything and anything gastronomical. Brillat-Savarin, who spent his days eating through the famed food capital of Dijon, lent a shrewd, exuberant, and comically witty voice to culinary matters that still resonate today: the rise of the destination restaurant, diet and weight, digestion, and taste and sensibility.
