

## The Raven and Other Poems (Classics Illustrated, Vol. 1)

Edgar Allan Poes poems are some of the most fascinating in the canon of American literature. Such classics as The Raven and Annabel Lee are taught in schools all over the country and are loved by readers for the demonstrated mastery of rhyme and meter. However, this mastery is simply a vehicle by which the reader is lured into committing part of his subconscious mind for the percolation of Poes works. The more they gnaw at your cortex, the more deeply entrenched they become. The Raven and Annabel Lee are but two of Poes most popular poems. This volume contains 54 of Poes best-known poems and is a wonderful addition to any library.
