

The Tinker & The Fold: Book 1 - Problem with Solaris 3 (Volume 1)

The fleet narrative never has any dead spots and boasts a clever range of aliens of all shapes, sizes, and appendages. It also has just the right balance of tongue-in-cheek (when a life form happens to have a tongue or a cheek) and serious elements when it comes to pondering moral issues and dilemmas. - Kirkus Reviews

They have been watching Because of him, they are coming Jett Joseph Javelin Junior is enjoying the eighth grade until his scientific tinkering goes dangerously wrong and attracts the attention of The Fold, an extraterrestrial force, tasked with keeping peace in the galaxy. When The Fold comes to collect him, Jetts life is thrown into disarray. From alien abduction, to life in Tower 100, to becoming a castaway on Lanedaar 3 and savior to the Boonans, to flooding the White House with living alien pom-poms that eat everything in sight, Jetts adventure to save Earth from The Neutralization Protocol and integrate it into The Fold is fraught with peril and will keep you guessing all the way to the end.
