

The Zero Class: A Science Fiction Fantasy: Cypher Theorem Series Book 1

Adventure. Reality-Twisting Technology. Magic-Laced Action. Eden, home to the last of humanity, has taken a thousand years to build beyond what they had destroyed. Vernon Douglas is a seventeen year old student at his local magic school. He dreams of greatness aspiring to become a Paladin. The best society has to offer. He is a rune caster. Shunned by most and not accepted into the most prestigious ranks because of their limitations. Despite his better judgment he accepts his friends request to join their schools magic tournament team. Giving Vernon a way to show what he is truly made of. Even with protection the sport can kill and magic is an unpredictable force. Vernon faces his fear, doubt, and high school as the final tournament approaches. Will all his efforts be in vain, proving he is really nothing but a lowly rune caster, or can he rise above? The Zero Class is the first book in the 10 book series Cypher Theorem. If you like Jim Butcher or Annie Bellet with solid face paced action laced with magic then this series is for you. Let yourself get swept away to a far off planet where the last of humanity resides. Buy The Zero Class today!
