ACTION-PACKED!!!

CHICAGO 2064: MANKIND CAN REWIND  
Talon Avalon is a timecaster--one of a select few peace officers who can operate a TEV, the Tachyon Emission Visualizer, which records events (most specifically, crimes) that have already happened. With crime at an all-time low, Talon has little to do except give lectures to schoolkids--and obsess on his wife's profession as a licensed sex partner. Then one of her clients asks Talon to investigate a possible murder. When Talon uses the TEV to view the crime, the identity of the killer is unmistakable--it's him, Talon Avalon. Someone is taking timecasting to a whole new level and using it to frame Talon. And the only way he can prove his innocence is to go off the grid--which in 2064 is a very dangerous thing to do. Time is NOT on his side. Featuring all of the action, thrills, and humor of other Konrath books, but set in an outrageous never-before-seen future, the Timecaster series is ecopunk on super steroids. Add in healthy doses of sex, some characters from Konrath's previous books (Talon is Jack Daniels's grandson), and a lot of outrageous ideas about technology, society, and politics, and Timecaster is a book that will appeal to anyone who likes to be entertained, even if they don't dig on sci-fi. If you are a more sensitive (or adventurous) reader, this handy scale rates specific categories from 1 (lowest) to 10 (highest) to give you some idea if this is your kind of book. TIMECASTER by JA Konrath Technobabble - 7 Action - 9 Sex - 8 Humor - 8 Crossovers - TIMECASTER also features Harry McGlade from Konrath's bestselling Jack Daniels series
