

FRACTURED SOUL Poetry From The Heart

My journey is one of overcoming what could very well have been a tragic end to my life. This short but poignant book of poetry walks you through some of my life events. These events can define us if we allow them to. In my upcoming full length memoir you will see how my life along with others was involved in the madness of the collective unconscious. Many people in my life acted out in rage, abuse and other destructive patterns simply because they believed in their story. They believed the story that had been implanted into their subconscious from an early age that they weren't good enough, that they had no choice, and that it was the only way. They had bought into the lie that their lives were defined by their circumstances and were powerless to change. Until society as a whole becomes consciously aware of their own trauma and abuse and comes to understand it for what it is, we may all be trapped to repeat the patterns of our own dysfunctional families. The journey to release the past was painful to say the least and it was a journey that I had to take sooner than later in order to survive. I truly hope you enjoy this short book of poetry from the heart. And later, journey with me when my full length paperback and Kindle edition are released later this year, **FRACTURED SOUL: A Black Market Babys Survival and Journey into Awareness**.
