

# Treating Traumatic Bereavement: A Practitioners Guide

This book presents an integrated treatment approach for those struggling to adapt after the sudden, traumatic death of a loved one. The authors weave together evidence-based clinical strategies grounded in cutting-edge knowledge about both trauma and grief. The book offers a clear framework and many practical tools for building survivors psychological and interpersonal resources, processing their trauma, and facilitating mourning. In a large-size format with lay-flat binding for easy photocopying, the book includes over 30 reproducible handouts. Purchasers can access a companion website to download and print these materials as well as supplemental handouts and a sample 25-session treatment plan. Winner (Second Place)--American Journal of Nursing Book of the Year Award, Psychiatric and Mental Health Nursing Category
