

Sic Semper Tyrannis: The Chimera Adjustment, Book Two (Imperium Cicernus 2)

The destruction of H.E. One and the Massacre at Philippa were only the opening salvos in the war for the Chimera Sector, and now Jericho and Masozi must race against time to execute the most significant Adjustment in the Sectors history since the conclusion of the Forge Wars two centuries earlier. But before they can take up arms in accordance with the First Right, they will need to submit to a tribunal conducted by their peers which will determine their readiness to play their part in putting an end to the chaos. If they fail, the situation will spiral out of control and the outcome may plunge the Sector a dark abyss from which it might never emerge. Even if they successfully navigate the tribunal, they will need to call on allies both new and old in order to stand a chance of discharging their duty. Battle lines will be drawn throughout the Sector, and everything Jericho and Masozi do while pursuing the Blanco Adjustment will have a widespread impact on shaping the forces which will compete for the Sectors future. Will it be enough to safeguard their fellow citizens freedom, or will the erosive forces of tyranny succeed in destroying the very mechanisms which have provided for the Sectors unthinkable success after the wormholes collapse?
