Winters Second Life became a lot more complicated when the Living moved into her hometown of Trenton. Undead neighbors fight with their Breathing ones. Food is sparse. And, worst of all, the season is taking a change for the colder. A desperate plea for help to a neighboring city turns deadly and soon Winter finds herself facing an old friend from her past whose plot to annihilate all life on the planet may have everything to do with her. And what about the man-with-the-heartbeat in her house? Is there even room for love in such a ruined, unforgiving world? New friends are made. Others are lost forever. In the dead of winter, no one is safe.
