

## Whispers from the Wild: Listening to Voices from the Animal Kingdom

Animal communicator Amelia Kinkade's vivid writing in her acclaimed books *Straight from the Horse's Mouth* and *The Language of Miracles* has drawn thousands of captivated readers and students into closer contact with their beloved companion animals, whether those animals are dogs, cats, birds, or horses. But Amelia's more recent work, mostly in Africa, has opened up an entirely new line of communication with wild, and often imperiled, animals. In each chapter of *Whispers from the Wild* Amelia paints remarkable portraits of exotic species in far-flung locales, from Great White Sharks in the cold oceans off South Africa to poisonous Black Mamba snakes in sub-Saharan African jungles. Other chapters feature tigers, elephants, lions, bees, and whales! While many of the messages communicated by Amelia detail the plight of these endangered animals and their messages to the humans who threaten them, *Whispers from the Wild* is also a how-to guide with exercises and meditations enabling readers to whisper with their own favorite animals. Chapters feature Amelia's adventures with maverick conservationists Dame Daphne Shelldrake, along with her work with elephants, as well as shark warrior Lesley Rochat. Hilarious, uplifting, important, and fun, *Whispers from the Wild* is a rollicking and astonishing ride across our glorious planet and into the minds of some of its most beautiful, dangerous, and intriguing creatures.
