

Pandas 2015

Easily recognized by large black patched eyes, round bellies and fuzzy ears, Pandas are one of China's most prized treasures and are adored by many around the world. Found in the wild in only a few mountain ranges in China, this beloved bear is an endangered species reliant on active conservation. National Geographic Pandas 2015 features these special creatures in a series of brilliant images taken by renowned wildlife photographers. Each image is accompanied by fascinating National Geographic information and a large grid with moon phases and international holidays. Proceeds from the sale of this calendar support vital exploration, conservation, research, and education programs. Earth friendly, printed with soya-based inks on FSC certified paper.
