

Buried Hope (Spes Book 1)

The world is dead... and for a thousand years, they've hidden. The citizens claim they love Spes, the underground city where they evade the deadly toxins of the surface world, but the walls never end and the guards never cease to watch. There is a longing to escape, and a hope that someday the world might live again. But how do the people know what they are told is truth? How far will they go to trust the unknown, and how much will they fight for that they cannot have? ** NOTE: This is the first part of a serialized epic fantasy/sci-fi novel.
